

BULLETIN BOARD

The following information is provided to you as a FISA BC service. No endorsement is given or implied.

POPARD, the Provincial Outreach Program for Autism and Related Disorders, is offering four courses that independent school educators are encouraged to attend. These courses are 1) Supporting Students with

ASD (an online course), 2) Introduction to ASD-Practical Applications, 3) Introduction to Applied Behaviour Analysis, and 4) Nonviolent Crisis Intervention: CPI training. To register and to access POPARD's online resources visit <http://autismoutreach.ca/>

Independent schools are encouraged to access the other Provincial Outreach Programs (POPs). The complete list can be found on the Ministry's Inclusive Education Resources webpage: <https://www2.gov.bc.ca/gov/content/education-training/k-12/teach/teaching-tools/inclusive-education>

Mulgrave School in West Vancouver will host researchED Vancouver on Feb. 9, 2019. ResearchED is an international organization aimed at bridging the gap between research and practice in education. This conference will be attended by researchers, teachers, and policy makers from across North America in an effort to come together for a day of information-sharing and myth-busting. For more information and registration details visit <https://researched.org.uk/event/researched-vancouver/>

Structured Word Inquiry Literacy instruction for all ages and abilities

James Cameron School in Maple Ridge will host a Structured Word Inquiry literacy instruction workshop with Dr. Peter Bowers on Feb. 21 - 22, 2019. For more information

visit <http://jcs.bc.ca/wp-content/uploads/2015/01/Morphology-Workshop-Information.pdf>

Edify Learning Spaces is looking to partner with Vancouver area independent schools in providing after school care to children ages 5-12 years old. Edify has developed a S.T.E.A.M. enrichment program designed to complement the new BC Curriculum. For more information visit <https://www.edifylearningspaces.com/>

Enrollment is open for TWU's Master of Arts in Educational Studies - Special Education. The program combines two-week condensed summer classes with 12-week online classes in the fall and spring—

allowing teachers to continue their teaching employment throughout the program. Students complete the MAES-SPED program over the course of two years, plus one additional summer. For more information visit: [https://](https://www.twu.ca/academics/school-education-school-graduate-studies/educational-studies-special-education-ma)
