

# FSA2020/21: District Marking Monitoring Report

## Independent Schools

This report is a resource to support school districts in scoring related activities.

The information is based on each district's 2020/21 FSA scoring results compared with the scores at the monitoring session when sampled student responses were re-scored.

1. Satisfactory alignment is achieved when 80% of the local scores are within one point (-1 or +1) of the scores assigned at the provincial monitoring session.
2. Use this information in training/scoring activities if there is a tendency that the local scores are lower or higher than the scores assigned at the provincial monitoring session.
3. Consider and use the data in the context of the number of booklets monitored.
